

To: All Aerosmith Customers

Re: Aerosmith Material Safety Data Sheets (MSDS)

As Articles, fastener products, tools, accessories, and mechanical concrete anchor products are exempt from Material Safety Data Sheet (MSDS/SDS) requirements under the Hazard Communication Standard (29 CFR 1910.1200(b)(6)(v)). For this reason, Aerosmith Fastening Systems does not have available MSDS/SDS sheets for its fastener products, tools, accessories, and mechanical concrete anchor products.

Articles are defined in 29 CFR 1910.1200(c),

“Article” means “a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees.” 29 CFR 1910.1200(c).

Exceptions: Batteries, fuel cells and adhesive anchoring products. M(SDS) sheets are available upon request.

If you have questions or need further assistance regarding this matter, please contact the Aerosmith Fastening Systems at 800-528-8183.

Sincerely,

Spencer Jessee
President
