

Transitional Shades

allure® Transitional Shades

Allure Transitional Shades offer the privacy of a window shade, the softened view of a sheer, and the option of raising or lowering your shade with privacy control at every level! The 3" to 3 1/2" vane size smoothly transitions from an open shade to a closed shade. Or choose the 5" vane for larger scale windows.

Operating the shade using a continuous loop bead chain is easy. A Cord Tension Lock is installed on the operating side of the shade to secure the cord and keep the continuous loop tight. Metal chains are also available as an upgrade.

A Couplitaire shade (see back photos) combines an Allure shade (room side) with a room darkening fabric (street side) on outside mount shades to maximize privacy and light control.

All Allure fabrics can be FR treated for commercial and educational facilities. Allure shades have a Lifetime Limited Warranty.

Transitional Shades

allure® Transitional Shades

Fabric Selection

- 31 Light Filtering fabrics with 3" to 3 1/2" vane
- 6 Room Dimming fabrics
- Mystic Wide with approximate 5" vane
- Total of 131 skus

Manual Transitional Shade

- Clutch operated with beaded loop chain
- Includes a fabric covered cassette
- Choose Small or Large Cassette
- Vane alignment to $\pm 1/4"$
- Cassette colors: Black, Bronze, Brushed Nickel, Desert Tan, White, Vanilla
- Options: Multiple Shades on One Headrail, Metal Bead Chain

Modernaire Option

- Contemporary European style
(Exposed hardware, no cassette)
- Clutch operated with beaded loop chain
- Headrail is white only and is exposed
- Headrail is turned based upon IS or OS
- Vane alignment to $\pm 1/4"$

Flame Retardant Coating

A flame retardant coating is available for all fabrics. The shade is fabricated then sent to an external facility for the flame retardant coating. Allow four to six weeks extra delivery time for this service. Standard shipping is included.

Several motorization options are available.
See Allure Motorization Overview.

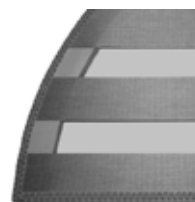

Couplitaire Option

- Two shades operating independently
- Clutch operated with beaded loop chain
- Allure shade to room side with beaded loop chain
- Serene Room darkening material (white backing to street side) with EZ Lift operating system.
- Fabric covered valance made with the Allure material to conceal the lift systems

Arch Options

- Allure fabric in the fixed open or fixed closed position
- Standard Arch has painted or stained wood frame with gimp trim and staples
- Framed Allure Arch has a finished look with 9 wood finishes available - Gardenia, Navajo White, Natural, Cottage Pine, Buckeye, Mahogany, Java Roast, Thunder and Ebony Wash.
- Routed Framed Allure Arch provides a notched edge on back side so the face fits flush against the window frame for easy installation and reduced light gap.

Standard Arch
with gimp and wood frame

Framed Arch
Available in 9 colors
