Rail-Truck Logistics at the Crossroads of America

VENTURE LOGISTICS
YOUR TOTAL TRANSPORTATION COMPANY

Venture Logistics is an independently owned, ISO-certified transportation company, providing full-service trucking and logistics, with terminal locations in Lafayette, IN, Chicago, IL, Laredo, TX, St. Louis, MO, Spartanburg, SC, Atlanta, GA, and corporate headquarters in Indianapolis, IN.

Services include long and short haul trucking, LTL trucking, warehouse & distribution, brokerage, logistics and a dedicated fleet of tractors operating throughout the continental US, Canada and Mexico.

Announcing Our All-New, State-of-the-Art Truck-Rail Facility at Indianapolis.

Our latest venture, slated for opening in 2016, is a newly constructed rail-truck terminal and food grade warehouse facility on the south side of Indianapolis. With local and over-the-road trucking services provided by Venture Logistics and rail switching provided by The Indiana Rail Road Company, we're able to offer customers complete connectivity to the nation's rail network via daily service to the Chicago gateway, as well as a one-day truck haul to nearly 80 percent of the populations of the U.S. and Canada.

The economy of rail, the flexibility of trucking.

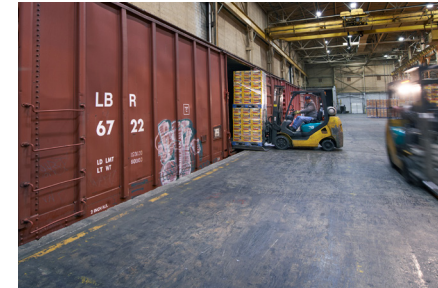

The new Venture Logistics facility offers customers a unique platform for strategic innovation and end-to-end solutions, leveraging the economy of long-haul rail with flexible, highly customizable local and regional trucking services from an ISO-certified carrier. Inbound and outbound rail-truck cross-dock and transload is complemented by advanced warehousing, inventory management and deconsolidation services.

Contact us today to discuss securing a position as a launch customer.

www.venlog.com

A hub city for four major Interstate highway routes, Indianapolis has earned the moniker "Crossroads of America." This unique connectivity and proximity to major metropolitan areas makes Indianapolis a prime strategic location for logistics and distribution, with 80 percent of the U.S. and Canadian population reachable within a day's drive.

Location:

- Southside Indianapolis
- 1.4 mi. to Interstate access

Facility:

- 406,000 sq. ft.
- Food grade
- 15 indoor rail car spots
- 58 truck doors
- 32 ft. ceilings
- 8-inch cement floor
- Sanitary, fully secured and insured warehouse

Services:

- Cross-dock & transload services
- Cross-dock services: rail-to-truck/truck-to-rail
- State-of-the-art warehouse management system
- 24/7 Online inventory management
- Stock segregation/rotation
- RF capabilities
- EDI, RF, bar coding
- Serial number and lot control
- Truckload transportation: dry van, flatbed
- Reverse logistics
- Food distribution
- Local and national transportation
- Consolidation & deconsolidation
- Specialized material handling equipment
- Emergency delivery service
- Network affiliations
- Multiple rail switches daily

Venture Logistics' new facility is just a few hundred yards from Interstate highway access, including four major cross-country routes. Additionally, state and U.S. highways provide access to regional industrial sites engaged in the production of steel, autos, heavy equipment, foodstuffs and endless other products and commodities.
