## Giddy Up & Grow Update: September 2020 Updates

The south driveway has been under construction this month to allow for two-way traffic.

The therapist office is almost complete!  
These windows look out to our new gymnasium.

This bike storage space will be a perfect spot to keep all the bikes our kiddos use to practice their gross motor skills. This door goes outside, so they can take their bikes and ride!

A look down the hallway. This hallway is home to private evaluation rooms, our new Speech Therapy room, a sensory gym, a life-skills room, and more bathrooms!

Cabinets are starting to arrive and be installed! This will give us so much storage space, as well as a uniform look in our administrative offices.

The steps and ramp are fully installed and ready for foot traffic! This east side of the building will be where our administrative staff and volunteers arrive.
