

Please Wait Card

Please Wait

How to Use:

1. Print the card. Laminate it and cut it out.
2. Use as a visual support, for students that have difficulty waiting.
3. During turn-taking activities. Show the student the card, say "Please Wait," and place it on the table in front of him when it is not his turn. When it becomes his turn, remove the card and say, "Your turn." Repeat that process throughout the activity, placing the card on the table when it is not that student's turn, and removing the card when it is.
4. You can also use as a portable visual cue and take it with you to the cafeteria for students that have difficulty waiting in line and any other area of the school where "waiting," may be difficult.
