Ever Considered Taking a Virtual Course?

What are the benefits, advice, and impressions of Warren students who have already taken a virtual course?

What students are saying . . .

+ *“Got to have an opening for a class I wanted to take for the next year.”*

+ *“The course let me work at my own pace so I didn't feel pressured to rush. I could work on it whenever I wanted to so I worked on it at odd hours of the day if I felt like it.”*

+ *“I benefited from the flexibility that the virtual course/courses provided by going at my own pace to learn the material. I didn't have to wait on another student to learn material that I already knew.*

Benefits

What students are saying . . .

It is best to work in a quiet environment with no distractions. Working at the same time everyday helped as well.

Read a passage then answer the questions. . . Have the text open and the work open at the same time.

It is easy to fall behind, and keeping up with the due dates is much more important than I originally thought.

I can use the study guide in order for me to get better grades on my tests and exams.

Slacking is a very hard thing to overcome . . .

Advice

What students are saying . . .

Instructor was available . . .

Would take another online course . . .

Would recommend online course to my friends. . .
