

FINANCIAL HEALTH FCU

Serving IU Health and the community

For almost 50 years, Financial Health Federal Credit Union has focused on providing financial wellness to our members — especially during tough times. As we continue to face this unprecedented moment in history, you can count on us to keep your deposits safe and put our members first.

Throughout this pandemic we have seen other financial institutions close their lobbies and restrict services. Your credit union has continued to offer lobby service so that you receive the support we know you value. To make sure that we were following Marion County and state of Indiana guidance we did restrict branch operations. As we move into the month of June we will be providing additional lobby service as we ease into more normal operations throughout the month. The following calendar provides you with information on which of our locations will be open to assist you with your financial needs in the next two weeks.

Financial Health Federal Credit Union Branch Schedule						
Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday

This coming Monday, May 25, 2020, Financial Health Federal Credit Union will be closed for Memorial Day to honor our heroes who served in the United States Armed Forces.

The credit union continues to take measures to keep our members and employees safe. For your protection there is a limit on the number of members allowed in the lobbies at the same time to meet social distancing requirements. We encourage you to use online, mobile and telephone banking if possible.

Sincerely,
Shawn Wolbert, President/CEO
Financial Health Federal Credit Union
